No.	Suggestion	Feedback
1	Quarterly village magazine/newsletter – more adverts, More regular newsletters. Could be done in conjunction with St Mary's Church Mag?	WHPC are looking to increase the frequency of our newsletter from once a year to at least twice a year, but possibly quarterly in due course. Decision not to do this in conjunction with St Mary's Church magazine as feel that this could be confusing (already have some difficulties with people confusing parish church and parish council)
2	Village Diary, Facebook Page?	We have news & events on our website. We will be putting PC meeting dates in our next newsletter. We are considering using social media – no immediate plans
3	Directory of Local Tradesmen with emergency numbers	We feel that this is already covered through existing publications and that the Parish Council would not want to publish details on tradesmen as it would suggest that we are endorsing them, which we wouldn't be doing.
4	Village App to engage youngsters, App to book Tennis Court	See item 2 above re. social media. Tennis court covered by Community group
5	System to communicate information/issues to residents – email alerts	We are currently looking at starting email communications to residents
